# MINER 2049<sup>er</sup>™

## The best selling arcade action game with ten progressively challenging color screens

Saddle up with Bounty Bob and get set for the wildest and wooliest chase ever.

You follow the notorious Yukon Yohan into an abandoned uranium mine. But before you can capture him, you must carefully maneuver through 10 levels (11 levels in ColecoVision™) of traps, tricks and lethal challenges.

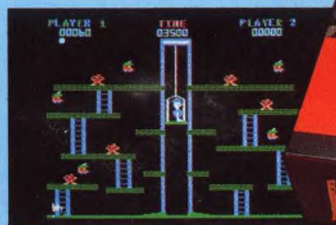

You scale ladders, make death-defying leaps, jump from moving platforms, neutralize deadly mutants, avoid crushing stompers... even shoot yourself out of a cannon. And through it all, you must race against the clock.

Skill...endurance...you're gonna need every ounce you can muster if you want to conquer all 10 levels of Miner 2049er.

Are you ready, podner? Then mount up and move out. Bounty Bob needs your help right now!

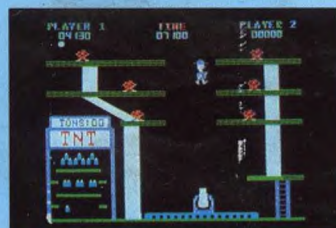

Level #1: The ladders look easy... until you meet the mutants.

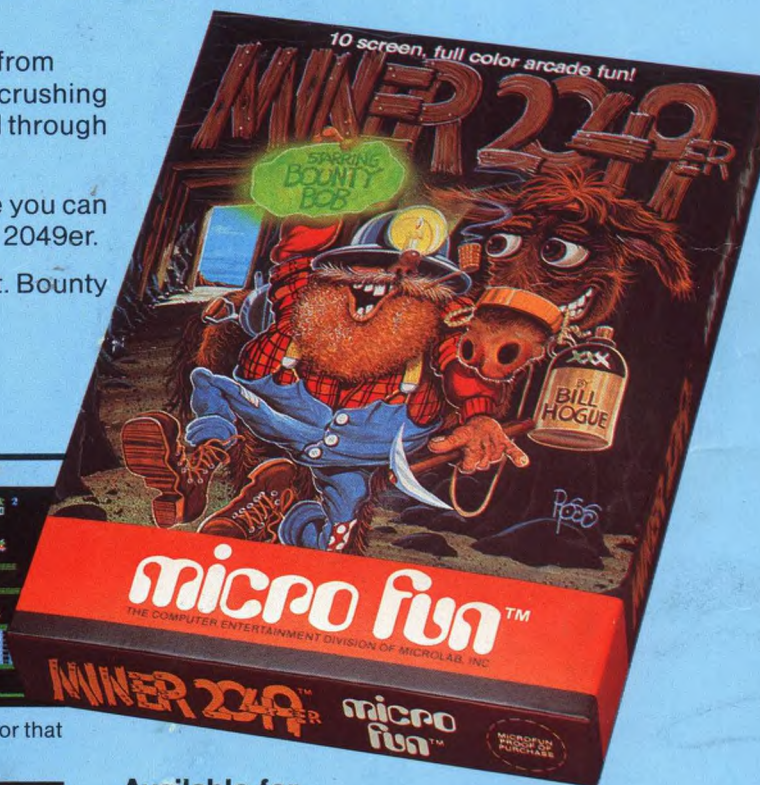

Level #3: Here's the elevator that promises a wild ride.

Level #6: Land in this deadly pool and you won't glow with victory.

Level #10: Eat some T-N-T and climb into the cannon. It's a blast.

Available for  
Apple II & IIe  
ColecoVision  
IBM PC
